Your project under focus

Why not take the easy option and rely on our experts to guide you every step of the way? As part of our project management process, we work with our customers to identify which system, which system module or full-service solution and which device, suits their needs best.

- Consulting and management
- Controller programming services
- Creation of visualization applications
- Electrical engineering and control cabinet manufacturing
- Service and maintenance
- Training
- Retrofit
- Functional safety
- Industrial security

TRADING CONSULTING &
MANAGEMENT

Consulting and management

- End-to-end project management
- Use of standard project management software
- Conceptual design and project planning (centralized, decentralized), dimensioning of project-specific drive technology
- Path, movement and energy optimization
- Creating the safety concept: Selecting safety components
- Selecting sensors, actuators and motors, as well as suitable automation components
- Sourcing of all necessary components

Controller programming services

- Structured text programming to the IEC 61131-3-(ST) standard
- Programming of third-party systems
- Conceptual design and development of software structures
- Development of programming concepts suitable for series-production machinery including version management, update functions and variant handling
- Complete function test and approval

Creation of visualization applications

- Visualization using your own or standard visualization software
- Alarm handling, recipe management, collection and further processing of order and PDA information
- Implementation of database integration
- Selection and programming of suitable user interfaces with key, mouse or touch operation
- Complete function test and approval

Electrical engineering and control cabinet manufacturing

- Planning and optimizing production capacity
- Manufacturing of control panels and cabinets
- Production in accordance with current EN regulations
- CE certification with risk analysis | Preparation for UL certification
- Electrical design with Eplan | to UL guidelines as an option
- Planning and design according to current standards
- Creation of wiring and terminal diagrams
